Dear General Secretary!

On 22 September 2024, the Summit of the Future 2024 will start after two action days.

With TRANS 28 (project in progress) INST and the allied networks with over 25.000 participants from over 150 countries show the importance of your efforts.

The importance of a new UN is the importance of a new world peace order.

The UN Charter shall also be respected by the club of the rich, who meant to can rule the world.

The Human rights shall not we misused for political purposes and wars.

US is fighting because the Dollar breaks down.

The reason: investments for weapons instead of infrastructure/ production, marketing ("Artificial Intelligence")/ espionage instead of useful digital tools, financial speculation.

The fall of the dollar brings enormous turbulences for the world as there still is no transformation to a new world currency.

The bases of a new world order must be a new world currency.

Then new structures of UN will be possible which express the new peace order.

Veto is not the problem.

The problems are energy, currency, climate, water, medicine, technology etc. and warriors who do not understand that [The Iron Age](#) ends.

The International Year of Quantum Science and Technology 2025 gives the chance for new energy, new currency.

Zelenskyi let human beings die on the battlefield for elections in US.

Keir Starmer supports war as Tony Blair did before (no heating for winter but weapons for war).

Jens Stoltenberg turned into a warrior after his good role in Norway.

But there is a chance for a new UN, peace for a multipolar world with no place for warriors.

The best for your efforts.

Sc.Dir.Dr. Herbert Arlt

P.S. It was usage that only representative of states got answers from a General Secretary. But also for this a change comes up as the efforts of President Lula show to involve the civil society in the G20 summit in Brazil. And in the 30 years of INST ([www.inst.at](http://www.inst.at)), INST did not only use the UN languages (and more) as the INST languages. There was support by Presidents, Governments, Majors and of UNESCO and UN for the INST suggestions and acceptance of INST delegates especially of UN conferences to abolish atom bombs.

Most important from the beginning:

- 1998-2001: member of the Austrian UNESCO Commission (until the right-wing Government ended the Commission)

- 1999: first INST World Conference at UNESCO headquarter in Paris

- 2001: support of the World Project of Mountains by General Assembly of UNESCO

- 2002: official delegate at the UN Mountain Summit in Bishkek, Kirgistan

- 2003: presentation of main chapters of [UNESCO - ENCYCLOPEDIA OF LIFE SUPPORT SYSTEMS \(EOLSS\)](#)

Etc.

Most important now the UN Year of Quantum Technology.

The action is important not the diplomatic act.

But the sort of diplomatic act shows the sort of organization.

And to exclude people, civil society is not in the sense of UN Charter who is in the name of the people.
